Some the plays were wonderfully clever, cally two one-hand stops, that checkd what might have been runs. George Whaley was right in the game, too. He Seided grandly, and his work occasioned merited applause. All of the other cham-lemm did their whole duty, and showed what careful coaching and drilling in team work by Manager Wells had accomplished. FORFEIT GAME TO WILKESBARRE, Readings Resort to Dilatory Tacties and the Umpire Calls Them.

WILKESBARRE, PA., June 1 .- (Spebetween Wilkesbarre )-The game tle up to the ninth inning, when the Barons got on to Garvin and pounded him hard, scoring five runs. The visitors, seeing the contest was hopelessly lost, the umpire would call it on account of darkness. Owing to the presence of a circus in town, the game was not called until 4:30. It was quite cloudy, but not too dark to play. Umpire McDermott was not a large crowd present, but in the little family gathering were all of the faithful rooters, and led by Dr. Italian and Claiborne Epps, they had all known of fun.

BEAR RAID IS OVER

STOCKS IMPROVE, AND TENDENCY OF PRICES IS UPWARD.

HEAVY LIQUIDATION IN TOBACCO.

This is Followed by Gains, Late in the Day-Yellow-Fever Scare Still On-The Grains Lower-Provisions

NEW YORK, June L-The bears made shme further progress in forcing prices to a lower level to-day, but they were by no means in so aggressive and confident a mood as yesterday. There was very heavy covering of short contracts during the course of the day, and last prices are materially above the lowest, even in those stocks which show the heaviest net losses. The bears met deermined resistance in some of the stocks which have hitherto proved most vulne-rable to their attack. The latter part of the day showed a distinctly improved tone and an upward tendency of prices with no disposition apparent from the bear faction to make further ventures for the present. After the opening dip in prices there

was the usual professional covering, de-signed to meet the orders of outside operators. The resulting rally was shortfators. The resulting rally was short-lived, and the bear party then made their demonstration in force. They brought out heavy liquidation in the Tobacco stocks, Western Union, Metropolitan Street Railway, Manhattan, and Brooklyn Transit, and extended their operations in spite of the weakness of the wheat market to the Granger group. The Union Pacific and Northern Pacific stocks were savagely attacked simultaneously with the appearance of the statement that the Union Pacific net earnings for April showed a decrease of over \$117,000, compared with the corresponding period, last year. Coupled with the similarly poor statement of Northern Pacific earnings, which appeared yesterday, this caused a break in the stocks of the two companies, ranging from 1, in Northern Pacific, up to 2% in Union Pacific. The extreme decline in Metropolitan was 7 points. The continued weakness of Amalgamated Copper, which sold down to \$7, on odd lots in the outside market, served to encourage the bears, as indicating an abandonment of a purpose on the part of the powerful interests behind that property to support the price no longer. There were several developments, however, during the day, which sorved to dissipate the bears. Pacific and Northern Pacific stocks were YELLOW-FEVER SCARE.

developments, however, during the day, which sorved to dissipate the bears.

YELLOW-FEVER SCARE.

The yellow-fever scare continued, and roads in the territory affected were firmly held all day. London was a large buyer of Louisville, in spite of other elements of weakness in that market. This and the easing off in call money in London after the settlement caused an easier lone in the sterling exchange market here, and so mitigated yesterday's apprehensions of immediate gold exports.

The reported large selling of wheat for Southwestern account helped to keep the railroad stocks of that region steady. There were reports of favorable conditions and prospects in the Anthracite trade. Scrutiny of the Union Pacific statement showed that the decrease in April net earnings was accounted for more than twice over by an increase in operating expenses, much of which was understood to be going into permanent improvements and betterments. There was evidence also of positive strength in Sugar, Rubber, and the Smelting stocks. When Metropolitan Street Railway suddenly bounded upwards to 206, the bears were quick to take alarm, and other conditions also pointing to a warning, they rushed to cover. The extreme gains from the low point were in Metropolitan. 7 points; Sugar, 5; American Tobacco, 3½; Continental Tobacco and American Tobacco a leach; Brooklyn Transit, 2½; Burlington, nearly 2 points, and many other stocks a point or over.

There was an easy tone to the bond market, in sympathy with stocks, but losses were not so conspicuous there as in stocks. Total sales, 3,810,000. United States new 4's advanced ¼ and the old 4's, registered, ¼ in the bid price.

The pit in the Cotton Exchange presented a lifeless scene during the greater part of the session to-day, and the bulletin board recorded insignificant price variations. Helped by encouraging cables from Liverpool, the bulls succeeded in scoring an advance of 1962 points on the first call, but finding the investment public indisposed to lend their aid, gave attention exclusively to the readjustment of stragging accounts pending further developments, not only in Europe, but in the South as well. As a matter of precaution, some of the less confident shorts sought cover around the opening, but soon withdrew from the market. Aside from the cable news there was little on which to base new ideas. The weather in the South was unchanged, crop reports indicated much the same conditions as heretofore, receipts at interior points and the ports were light; American cloth markets were quiet and strong; southern spot markets were steady to firm, with moderate demand, and the export movement was small. The market closed firm, 1 point lower to 1 point net higher.

The Farmers Forward With Theis The Farmers Forward With Theis Work-South Boston Notes.

SOUTH BOSTON, VA., June L.-(Special.)—The cold weather lasted longer and was more severe than usual this spring, yet, strange to say, farmers are, as a general thing, more forward in their crops than is usual. For the first time in a number of years nearly every farmer has finished transplanting his tobaccoplants in the month of May. The seasons have been exceptionally fine. It rains at intervals to suit planters. There was never a more opportune time for planters and truckers. The sales of tobacco this week have been unusually large, and prices have been unusually large, and prices have been igher than for many months.
